

Divine Anti-Virus

Computers
are never
as quiescent
as they appear.

The outward frame
Is motionless,
but deep within
stirrings abound.

'Downloading an
upgrade,' I'm told:
anti-virus
working for me.

Background efforts,
protective shields
against deadly
unknown attacks.

Implications
for all abound.
Praying downloads
upgrades as well,

guarding against
spiritual
forces threat'ning
both faith and life.

To be firewalled
by God himself
is to be spared
calamity.
